**Communications Sunday:** The day, celebrated on Sunday 12 May, has as its theme "Artificial Intelligence and the Wisdom of the Heart: Towards a Fully Human Communication". The pace at which AI is developing is extraordinary. The ethical questions surrounding the technology will always need amplifying – how AI impacts on how we think, the dignity of work, how we use the information, its sourcing and accuracy, global regulation – to cover just a few bases. Pope Francis is keen to stress that communication needs to be authentic and human. We must speak from that most human of organs, the heart!
